

Number of Licenses

The NTC will grant two spectrum licenses, with a bandwidth of 2 x 15 MHz each as shown in Table 4.1 Each bidder is entitled to bid only one spectrum lot or 2 x 15 MHz.

Table 4.1 Spectrum to be licensed

spectrum	bandwidth	Lower Frequency	Upper Frequency
lot 1	2x15 MHz	1710-1725 MHz	1805-1820 MHz
lot 2	2x15MHz	1725-1740 MHz	1820-1835 MHz

In order to do so, the legal process of returning 2 x 4.8 MHz and the spectrum rearrangement of the relevant entities to obtain contiguous 2 x 30 MHz in the 1800 MHz band must be completed within the specified time. In the case that the mentioned procedure cannot be completed within the specified time, the NTC will proceed the auction with only two lots of 2 x 12.5 MHz that the concessions had ended: the first lot covers the range of 1710 – 1722.5 MHz paired with the range of 1805 – 1817.5 MHz and the second lot covers the range of 1748 – 1760.5 MHz paired with the range of 1843 – 1855.5 MHz The relevant terms and conditions will also be adjusted in accordance with the auction of 2 lots of 2 x 12.5 MHz.

In the case where there is any remaining after the the auction, the NTC will begin the process to grant the license for such remaining spectrum within one year as from the end of the previous auction.

In the case where there is no Bidder, the NTC reserves the right to dismiss the auction and will consider schedule of next auction as appropriate.
